

Practicum Experience

Doctor of Nursing Practice

A total of 1,000 clock hours of practicum experience post-BSN is required for the DNP. Upon admission, Post-MSN students may receive credit for up to 640 clock hours of practicum accrued in the MSN program and subsequent clinical work. Post-BSN practicum hour equivalents are assessed individually on each applicant by resume and/or portfolio review. Some students may require additional practicum credit hours to meet the 1,000 post-BSN clock hour requirement.

Program requirements include a minimum of 360 clock hours (6 s.h.) of practicum, and DNP project hours.
