Spring 2017 Workshops for Teachers

May 15, 2017 • August 5, 2017

Workshops

- EDU 2140 (SOC,SW) CONFLICT RESOLUTION IN THE CLASSROOM, HOME AND ON THE JOB 1 s.h.
A workshop to provide participants with both information and skills in conflict management in classroom, home and work. The focus is on caring problem solving within a win/win framework.
Friday, June 2, 2017 5:30 p.m. - 9:30 p.m. and
Saturday, June 3, 2017 8:30 a.m. - 5:30 p.m. Instructor: Michelle Proctor
- EDU 4180.15 HEALTHY KIDS, SMART KIDS: TEACH NUTRITION 1 s.h.
The brain is in constant need of a good supply of nutrients, yet many students are not eating their daily recommended intake of fruit and veggies, but getting more than necessary of sugar. Teachers have a real opportunity to encourage healthy eating habits through teaching nutrition. This course will explore the components of nutrition that support and maintain children's health: utilizing US government recommendations and natural medicine wellness guidelines. Students will be able to recognize the pitfalls of over-nutrition and under-nutrition related to learning, and be able to integrate their nutrition knowledge into the core curriculum such as math and science lessons.
Friday, June 23, 2017 5:30 p.m. - 9:30 p.m. and
Saturday, June 24, 2017 8:30 p.m. - 4:30 p.m. Instructor: Michele Loewe
- EDU 5180.10 TEACHING & LEARNING FOR THE 21ST CENTURY 1 s.h.
Participants will explore 21st Century learning skills and how to incorporate them through meaningful, challenging, student-centered activities. This interactive workshop will address project, lesson and activity design through a balanced approach of technology, pedagogy and content knowledge. This course will showcase relevant examples of engaging activities across the curriculum.
Friday, May 26, 2017 5:30 p.m. - 9:30 p.m. and
Saturday, May 27, 2017 8:30 p.m. - 4:30 p.m. Instructor: Llewellyn/Rowe
- EDU 5180.41 SPECIAL TOPICS IN TRAUMATIC BRAIN INJURY: FOUNDATIONS & ISSUES 1 s.h.
This course will identify and describe the issues and needs affecting individuals with traumatic brain injury. The course will give an overview of the neurological and functional dimensions post traumatic brain injury. It will also emphasize the impact of brain injury in the community and on the family structure.
Friday, June 2, 2017 5:00 p.m. - 9:30 p.m. and
Saturday, June 3, 2017 8:30 a.m. - 4:30 p.m. Instructors: Joseph Richert
- SOC 2160 (SW) EMPATHY LISTENING SKILLS 1 s.h.
Instruction and practice in the establishment of rapport with individuals through practical listening skills. Techniques developed in the context of the helping relationship. Prerequisite: PSY1010
Friday, May 19, 2017 5:30 p.m. - 9:30 p.m. and
Saturday, May 20, 2017 8:30 a.m. - 5:30 p.m. Instructor: Angela Kennedy

It is suggested that one week prior to the scheduled workshop, contact the Registrar's office at 734-432-5400 to verify that the workshop will be held as scheduled.

Credits used to renew a Provisional or Professional Teaching Certificate must be appropriate to the grade level and content endorsement(s) of the certificate. Six semester hours of credit are required.
