

Educational Interpreter Workshop Series

A Video Conference Workshop Series

All Webinars will be held in room 2102-Main Building

Madonna University

October 7, 2017

Roman Numeral III: Back to Basics; Unpacking the Foundational Skills

Presenters: Frances J. Beurivage, RID CI/CT & Bethany Koubsky, BA, RID CI/CT

The intent of this training is to give an overview of the skills measured in Roman Numeral III. This section of the EIPA measures the candidate's foundational skills including the ability to recognize and deliver key vocabulary. Participants will focus on how to determine key vocabulary and if other words in a text should be fingerspelled to support literacy development. In addition to knowing when to fingerspell, the goal is to produce fingerspelling with clarity and accuracy.

We will also discuss the importance of selecting signs that convey the appropriate semantic intent..

December 2, 2017

Roman Numeral IV: Unpacking Discourse Mapping

Presenter: Dr. Deborah Cates, PhD

As with processing, much of discourse mapping occurs "behind the scenes". Part of message processing is generating a mental map of the relationships between pieces of information or ideas in the message. Typically, mental maps look like webs. While these maps are useful for thinking about and contextualizing information, they do not help with producing spatially-based discourse maps in an interpretation. This workshop will review a method of discourse mapping that can move from text to a structured interpretation making relationships in the message overt.

February 10, 2018

Roman Numeral II: Unpacking Sign to Voice Essentials

Presenters: Frances J. Beurivage, RID CI/CT & Bethany Koubsky, BA, RID CI/CT

The intent of this training is to review the elements important to Roman Numeral II: Sign to Voice. Participants will focus on matching the signer's register and affect. We will view a variety of child signers and focus on word choices that reflect the register of the child. Individuals will learn how to avoid extraneous verbiage that distracts from the message and how to develop a more fluent representation of the signer's ASL/PSE into spoken English.

April 7, 2018

Roman Numeral 1: Unpacking Use of Space and Classifiers

Presenter: Jonathan Scherling, BA

This workshop will guide participants through Roman Numeral I, which focuses on the use of classifiers and space. Native ASL user and ASL professor, Jonathan Scherling, will work with attendees to develop a better understanding of classifiers and when they are appropriate to incorporate. Participants will also work with organizing the message in visual space to make their interpretations more visually clear and concise.

All Sessions: 11:00am – 3:00pm (EST)

RID CEUs will be available for these workshops (see page 2).

This workshop series is sponsored by the Michigan Department of Education-Low Incidence Outreach and MCESA. *BEI/EIPA units will be applied for.*

RID-CEU: Nebraska Commission for the Deaf and Hard of Hearing is an approved RID CMP sponsor for continuing education activities. Each of these Professional Studies programs is offered for .4 CEUs at the "Some" content knowledge level.

MDCR-DODDBHH has approved MI CEU Sponsorship for this Workshop with MDE-LIO for 0.4 Professional Studies units and 0.4 Education units. Partial MI CEU Sponsorship CEUs will not be awarded for this event and participants will receive a Certificate of Attendance as documentation.

Madonna University is located in Livonia, Michigan, off of I-96 (the Levan Road Exit).
