MU Job Link Privacy Statement

Madonna University strives to provide a high standard of security and privacy, on the MU Job Link. However, no data transmission over the Internet or any wireless network can be guaranteed to be absolutely secure or effective and Madonna University does not guarantee the security and privacy of any data, information or content. You should be mindful to share only the information that you feel comfortable posting under these circumstances.

- If you opt to include your resume in a resume book, keep in mind that all employers have access to the resume books and may contact you without you applying directly to them.

- Site users are urged to validate information such as job postings and use caution and common sense when applying and relying on MU Job Link data. For example, do not disclose Social Security numbers, credit card information, or bank account numbers with unknown employers.

- Look at the domain (after the @ sign) to verify authenticity. For example, the legitimate address for the IT helpdesk is helpdesk@madonna.edu. A possible phishing email could be from MUhelpdesk@gmail.com. Gmail is a general mail provider where an individual can create almost any ID.

- If you have any questions regarding questionable emails, spam, or possible malicious content received from the MU Job Link, please forward inquiries to abuse@madonna.edu.
