

## Admission Requirements

### Graduate Certificate: Information Technology Management

Applications are evaluated based on the following:

- Possession of a bachelor's degree from an accredited institution with an undergraduate grade point average of 3.0 on a 4.0 scale. An average of less than 3.0 will be considered for conditional admission.
- Bachelor's degree in IS/CS, or three years experience in the information systems industry, or certification as MCSE or MCP or CNE.
- Two letters of recommendation from current employer or professional associates familiar with the applicant's work or college performance.
- Submission of a statement of purpose for participating in the program.
- Admission interview with a School of Business advisor.

Pre-requisites may be required.
