

Admission Requirements

Master of Science in Health Services Administration

Applications are evaluated based on the following:

- Possession of a bachelor's degree from an accredited institution with an undergraduate grade point average of 3.0 on a 4.0 scale. An average of less than 3.0 will be reviewed for conditional admission.
- Two letters of recommendation from current employer or professional associates familiar with the **applicant's work or college performance.**
- Full-time employment for at least three of the last five years. International students unable to pursue full-time employment in the United States while completing a graduate degree may be admitted to the program if the student has prior substantive full-time work experience.
- Current résumé.
