

Madonna University

Criminal Justice • College of Social Sciences

About the Program

Overview

Madonna University offers associate and bachelor degrees, as well as a major, minor, certificate of achievement, and certificate of completion in criminal justice.

The criminal justice department affords educational opportunities to pre-service and in-service career persons in law enforcement, corrections, and courts.

Program Specifics

The criminal justice program aims to develop an understanding of the social environment, an awareness of social problems and their implications, and a critical approach to living in society. It also provides the student with the ability to generalize, to make discriminating judgments, and to base responses in a given situation upon an understanding of the broader context of an individual's role.

Since the inception of the criminal justice program in 1972, over 2,100 students have gone through the program, and of that number, more than 75 of them have achieved the position of chief or director of their respective law enforcement agency.

Unique features

- Quality faculty who are practitioners in the field of criminal justice
- In-service personnel have the opportunity to establish a maximum of nine semester hours of credit for acquired knowledge, training and field experience
- Small, personalized classes
- Classes combine pre-service and in-service students
