Wrap-Up of Presidential Receptions
The Alumni & Friends Presidential Receptions for the 2015-2016 academic year wrapped up with the final event at Bakers of Milford, Wednesday, May 25. During the President’s remarks, he honored Sr. Mary Angela Parkins, CSSF, and local minister for the Felician Sisters in Livonia, who has been very supportive of Madonna’s mission. More receptions are expected to be scheduled for the fall, so watch your email for future announcements.

Students Assist at Missing Persons Event
Madonna University Forensic Science students recently spent the day serving as ambassadors at the annual Missing in Michigan event, which enables families of missing loved ones to file and update missing persons reports. “It really brings to the forefront the scale of this problem, especially since it’s so close to home,” said Associate Professor Jodi Lynn Barta, Ph.D., also the director of Madonna’s Forensic Science Program.

Health Science Students Gain Internships
The first cohort of students pursuing health science degrees will start internships this fall through MedNetOne, a health solutions company that provides services to health care practices. Students will work with mentors during the fall and winter semesters providing holistic approaches to health care across populations, said Mary Mitsch, Ph.D., professor of nursing and director Madonna’s health science program.

“We want to make sure our students are ready for employment,” she said.
