

2023 RESEARCH AND SCHOLARSHIP

SEPTEMBER 1, 2023 - AUGUST 31, 2024

A MESSAGE FROM THE DIRECTOR

The Center for Research is proud to present the *Annual Report on Faculty Research and Scholarship*, a comprehensive reflection of the dedication, expertise, and innovative contributions of our faculty. This year's report continues our tradition of capturing the breadth and depth of scholarly activities, highlighting the remarkable achievements of faculty across colleges and disciplines. Covering the period from September 1, 2023 to August 31, 2024, this edition showcases the dynamic and evolving nature of academic inquiry at Madonna University.

Since adopting *Boyer's Model for Scholarship*^{1,2}, this report has recognized faculty accomplishments across four key domains: discovery, integration, application and teaching and engagement. Organized by College and School, each section details faculty contributions within these categories, illustrating the many ways in which scholarship enriches both academia and the

broader community.

As you explore this collection of research and creative endeavors, you will find a diverse range of scholarly activities, from funded research projects, peer-reviewed publications, and conference presentations to interdisciplinary collaborations, academic service-learning, and creative performances. Faculty contributions extend beyond academia through leadership roles in professional organizations, service to local and national communities, and applied practice in their fields. Additionally, this report highlights ongoing professional development, including certifications and continuing education, ensuring faculty remain at the forefront of their disciplines.

At Madonna University, our commitment to the liberal arts tradition and Felician Franciscan values continues to be a guiding force in faculty scholarship. This dedication is evident in the research, service, and academic contributions detailed in this report. We invite you to celebrate the outstanding accomplishments of our faculty and recognize the profound impact of their scholarship on students, the university, and beyond.

Dr. Elena Qureshi

Interim Director, Center for Research
Interim Dean, The Graduate School
