EDU 4180.15 HEALTHY KIDS, SMART KIDS: TEACH NUTRITION 1 s.h.
The brain is in constant need of a good supply of nutrients, yet many students are not eating their daily recommended intake of fruit and veggies, but getting more than necessary of sugar. Teachers have a real opportunity to encourage healthy eating habits through teaching nutrition. This course will explore the components of nutrition that support and maintain children's health: utilizing US government recommendations and natural medicine wellness guidelines. Students will be able to recognize the pitfalls of over-nutrition and under-nutrition related to learning, and be able to integrate their nutrition knowledge into the core curriculum such as math and science lessons.
