

INTERNSHIP *Spotlight*

DOMINICK ALTMAN

School of Business

DTE Energy, Data Entry Specialist

Management Information Systems

TELL US ABOUT YOUR INTERNSHIP.

During my internship, I had the opportunity to enter records into an information technology database. I merged information into a database I created using a previous application that the department already had in place. My duties were to update the database to better its performance and make it easier to navigate for users on mobile devices.

WHAT WAS THE MOST MEMORABLE EXPERIENCE DURING YOUR INTERNSHIP?

The most memorable experience was having my coworkers tell me how much they loved my work. I also had the opportunity to travel to their Ann Arbor location.

WHY DO YOU THINK THE EMPLOYER CHOSE YOU?

I believe the employer chose me because of my major in college and my skill set. I also succeeded at the same type of work in the company's different locations.

WHAT CAREER ADVICE WOULD YOU GIVE OTHER STUDENTS?

I would tell other students to find what their passions are and never give up. Stay determined, and stick to what you love. Nothing can stop you from succeeding but you!

WHY DID YOU CHOOSE YOUR MAJOR?

I chose my major because I am fascinated with technology. Since the field is growing every day, I would love to give back and help others see my vision about how advanced the world will be with technology.
