

Computer Science Summer Camp For Middle School and High School Students

FAQs: Frequently Asked Questions

Why go to Computer Science Summer Camp at Madonna?

Not only can you dive into the world of Computer Science, but you can also spend time on a college campus and learn in a higher-education environment. Learning more about a wide range of computer programs, designs and communications will also give students an advantage when heading back to school in the fall.

What are the dates and times?

July 30- Aug 2, 2018 9:00 a.m. to 4:00 p.m.

How much does it cost and what do I get?

\$200 covers all four days and includes a robot kit for each student.

Are there any pre-requisites to signing up for Camp?

Campers need to have good basic computer skills, like those required for your normal school work, but there is no need to have experience in the four topic areas of Camp. That is what we will work with you to achieve.

Does this Camp offer any college course credits?

It does not. The Camp does not cover enough information in the 4-day time period to qualify for college credits.

Is this a beginner or advanced level Camp?

It could be described as a beginner's level Camp because no experience is required in any of the skills Campers will learn, yet basic computer and device skills are needed to get the most out of the Camp experience. Examples would include already having knowledge in using PowerPoint and Word (or similar) software programs, as well as some basic phone apps.

Is this the only week Computer Science Camp is offered?

At this time yes, but if registration demands are high we could add a second week right after.

If I can't make this week of Camp, who can I talk to if I'm interested in learning more?

Mike Johnson at: mjohnson@madonna.edu

How do I register and what is the deadline?

Registration is open until filled. Space is limited to 25 students.

Can I be put on a wait list if someone drops out?

Yes.

How do I pay?

Once you click on the 'Registration' button, you will be directed to a registration and payment form. All payments will be collected online during that time.

If a camper misses one of the four days can we pay just for those days attended?

No, the fee does not pro rate to days attended. Each day covers its own new topic, so if a day is missed it won't disrupt the flow of learning new computer skills.

Is lunch included in the cost of Camp? When/where is lunch served?

Yes, lunch is included but only on Thursday.

Campers have the option of bringing their own lunch any day, or purchasing lunch on campus, but options are more limited to purchase in the summer due to building remodeling plans.

Campers will generally eat at the noon hour. We will utilize the college campus food service areas to eat.

I've registered for Camp, where do I check in?

At the computer lab where Camp is held; in the Ford Computer Wing of the main administration building. This applies to all four days.
